UPSR SCIENCE TEST PAPER

Investigating Living Things

- Std 4: Basic Needs
 - i. Basic Needs of Humans
 - ii. Basic Needs of Animals
 - iii. Basic Needs of Plants
- Std 4: Life Processes
 - i. Life Processes that Humans Carry Out
 - ii. Bad Habits that Disturb the Human Life Processes
 - iii. Life Processes that are Carried Out by Animals
 - iv. Life Cycles of Animals
 - v. Life Processes that Plants Carry Out
- Std 4: Protection
 - i. Protection of Animals from Danger
 - ii. Protection of Animals from Extreme Weather
 - iii. Protection of Plants from Danger & Enemies
 - iv. Protection of Plants from Extreme Weather
- Std 5: Microorganisms
 - i. Microorganisms are Living Things
 - ii. Useful & Harmful Microorganisms
- Std 5: Survival of Species
 - i. Survival of Animals
 - ii. Survival of Plants
 - iii. Importance of Survival
- Std 5: Food Chains & Food Webs
 - i. Food Chains
 - ii. Food Webs
- Std 6: Interaction Between Living Things
 - i. Group Animals & Solitary Animals
 - ii. Competition
 - iii. Protecting Endangered Species
 - iv. Impact of Human Activities on the Environment

Investigating Materials

- Std 4: Materials
 - i. Materials Around Us
 - ii. Properties of Materials
 - iii. Conductors & Insulators
 - iv. Transparent, Translucent & Opaque Materials
 - v. Keeping Things Hot or Cold
 - vi. Uses of Materials
 - vii. Natural & Man-made Materials
 - viii. The Importance of Reusing, Reducing & Recycling Materials
 - ix. Rusting
- Std 5: States of Matter
 - i. Solids, Liquids & Gases
 - ii. Changes of State of Matter
 - iii. The Water Cycle
 - iv. Importance of Sources of Water
- Std 5: Acids & Alkalis
 - i. Properties of Acidic, Alkaline & Neutral Substances
- Std 6: Food Preservation
 - i. Food Spoilage
 - ii. Preservation
 - iii. Importance of Preservation Food
- Std 6: Waste Management
 - i. Effects of Improper Disposal of Waste on the Environment
 - ii. Some Waste Can Decay

Investigating the Earth & the Universe

Investigating Force & Energy

Investigating Technology
